

## QUAKER STEAK & LUBE ALLERGEN FOR CORE SPRING 2026

Quaker Steak & Lube uses a variety of ingredients in our preparation of our menu items. As part of this ongoing commitment, we provide the most current allergen menu information available from our food suppliers on the most common allergens including milk, eggs, fish, shellfish, tree nuts, peanuts, soy, sesame, and gluten/wheat.

Many of our foods contain soybean oil, and our fried items are prepared in 100% soybean oil. Under FDA regulations highly refined soybean oil is not considered allergenic and is exempt from labeling.

While we make every effort to minimize cross-contact, all menu items are prepared in a shared environment and may contain traces of allergens. Before placing your order, please inform your server if a person in your party has a food allergy. If you have further questions, please ask to speak to a Restaurant Manager.

Please note that we cannot guarantee any dish to be completely free of allergens.
